

Updating 4HPlus!

Checking 4HPlus! version

- Open 4HPlus!
- Note the version you are running. State County 4HPlus! Version Number
- Open Internet Explorer
- Go to <http://www.ahnrit.vt.edu>
- Select the 4HPlus! Support link (by cloverleaf on right hand side of screen)
- In the Downloads section, look at the required version number. If it is the same as your version, no further steps are required. Otherwise, continue with the following.

Updating 4HPlus!

- Close your 4HPlus! program
- Click on the link for the required version
- Select the SAVE button
- Select the SAVE button again to put the file on your desktop
- Once complete, select the RUN button
- If you get an “Unknown Publisher” warning, select the RUN button, otherwise skip this step.
- Make sure the Unzip to folder says **c:\ckv** and choose unzip
- Once the files have unzipped, select the OK button
- Now select the CLOSE button
- Start 4HPlus!
- If you get a backup warning page, select the OK button
- If you get a Table Upgrade page, select the Process Table button in the lower left, then choose Next Table in the lower right once it completes. You may need to do this step several times.
- 4HPlus! will automatically shut down when complete.
- Restart 4HPlus! and make sure the new version number is displayed.
